The pictures were taken at the Ottawa Tulip Festival, the Istanbul Tulip Festival, Keukenhof Gardens in Amsterdam, the Monet Gardens at Givernay in France, and several other locations. So many! Please don't get indigestion!!!

BOOKS, WEBSITES & APPS

Adventure/Landscape photographer Paul Zizka has compiled an excellent list of resources for anyone wanting to photograph the Canadian Rockies. Click on the link below.

"Each week I get emails or messages from fellow photographers asking where they should photograph in Banff National Park and the Canadian Rockies. Others ask me where to go hiking or scrambling so that they can get off the beaten track. I love getting these questions and seeing peoples enthusiasm for shooting these beautiful mountains." *Paul Zizka*

Why you should not delete images on your memory card using your camera
